PROFESSIONAL SUMMARY

Aspiring C# Software Developer with a strong foundation in Object-Oriented Programming, Logic Design, and UI development using .NET WinForms. Passionate about building reliable desktop applications and exploring hardware-software interfacing (Serial/RS232, TCP/IP, Modbus). Eager to apply multi-threading concepts and technical troubleshooting skills to develop high-performance industrial automation or enterprise software solutions.

TECHNICAL SKILLS

- **Software & Programming:** C++, C#, Python, PHP, JavaScript, HTML5, CSS3, SQL, VBA, Object-Oriented Programming (OOP), Multithreading Concepts
- **Networking & Systems:** Serial Communication (RS-232/UART), TCP/IP Socket Programming, System Logic Design, Hardware-Software Integration
- **QA/QC & Web Platforms:** Remote Quality Assurance, Telemetry & Performance Logs Validation, Hardware Validation, System Log Auditing, Bug Tracking & Debugging
- **Tools & Technologies:** Visual Studio, MySQL, Hostinger, XAMPP, Microsoft Excel (Advanced Formulas, Pivot Tables), Git/GitHub, CRM Platforms

WORK EXPERIENCE

Customer Service Representative - Healthcare & Inbound Support
BPO Solutions Industry | *Jun 2026 - Present*

- Assist healthcare members with prior authorization requests, prescription refills, medication order fulfillment, and prescription status inquiries while accurately documenting interactions in CRM systems and maintaining HIPAA compliance.
- Provide step-by-step technical phone walkthroughs guiding members through online web portal navigation, account management, and digital troubleshooting tools.
- Process account profile updates, prescription shipment tracking, and order fulfillment updates efficiently.
- Utilize CRM platforms and healthcare management databases to log interactions accurately and maintain compliance with privacy standards.

Data Lake QA/QC Specialist
Data Lake Project Based (via Ideal Dream Services Inc.) | *Jan 2026 - Mar 2026*

- Conducted remote quality assurance and control validation for Starlink satellite hardware installations, verifying photographic data, checklists, and system logs.
- Analyzed network performance parameters including connectivity, uptime, and latency data to identify system bugs and operational issues.

- Coordinated directly with field technician teams to troubleshoot and resolve installation anomalies and technical errors.
- Validated installation data for 100+ Starlink deployment sites and documented technical issues for prompt resolution.

IT Technician Assistant (On-the-Job Training)
AMA Computer College - Las Piñas | *Jan 2025 - Jun 2025*

- Provided technical support for hardware, software, and local network infrastructure.
- Installed, configured, and tested computer systems, operating systems, and custom software applications.
- Maintained computer laboratory hardware inventory, equipment stability, and peripheral setups.
- Provided technical coordination and audio-visual setup for academic virtual events and online platforms.

ACADEMIC & CAPSTONE PROJECTS

Web-Based Monitoring and Adoption System | Lead Developer
BSIT Capstone Project | *Feb 2025*

- Designed and developed a full-stack web application for the City Veterinarian Office of Las Piñas City to automate pet registration, missing pet announcements, and adoption tracking.
- Implemented dynamic QR code generation and scanning logic using PHP and MySQL to instantly link rescued animals with registered owner profiles.
- Applied Agile methodology to design, test, and deploy software tested across 100 end-users, achieving an "Extremely Effective" rating across performance, reliability, and security metrics.

EDUCATION

Bachelor of Science in Information Technology
AMA Computer College - Las Piñas | *Jun 2019 - Oct 2025*

- Completed Cisco Networking Academy Coursework as part of core curriculum.

CERTIFICATIONS

- **Certificate of Course Completion - NetAcad: CPP - Advanced Programming in C++** | Cisco Networking Academy (*Jul 2022*)
- **Certificate of Course Completion - NetAcad: CCNAv7 Enterprise Networking, Security, and Automation** | Cisco Networking Academy (*2021*)
- **Certificate of Course Completion - NetAcad: Cybersecurity Essentials** | Cisco Networking Academy (*2022*)
